Specific areas of responsibility include:

- ✓ Learn and understand design practices and legislation, complete hand calculations and use technical aids such as software and/or Microsoft Excel to design and verify a design is safe and meets current codes.
- ✓ Lead and work with CAD technicians to sketch and layout design including dimensioning and required materials/grades of materials.
- ✓ Provide construction support and supervision.
- ✓ Complete inspection reports, design briefs and completion reviews
- ✓ Inspections and Field Work
- ✓ Administration, Documentation, and Reporting

The successful candidate will have:

The successful candidate will have/be:

- Bachelor of Science, Major in Civil Engineering (Structural, Geotechnical, or Hydrotechnical).
- Recent professional designation or eligible, EIT or P.Eng.
- Proficiency in using models and software in engineering analysis.
- Self-motivated and able to work independently.
- Ability to exercise logical thinking, be analytical and effectively problem-solve.
- Detail oriented and organized.

Why Choose Meco as an Employer?

Large engineering firms strive to make you feel important and valued...At Small Firms you ARE Important and Valued.

Why Choose to Work at Meco:

- ✓ Technical Freedom to Explore and Develop “Your” Design Ideas
- ✓ Small company and a tight-knit group.
- ✓ Exposure to complex projects that challenge you to go to the next level.
- ✓ Competitive salary, comprehensive benefits package, training and development opportunities, and an RRSP matching program.

Core Values:

Fidelity: We are loyal. We lead a balanced life, maintaining balance between the needs of the company and our own needs.

Ingenuity: We are inventive, resourceful and clever in the workplace. We understand that ordinary can be made extraordinary with simple acts. We strive to put the sizzle in our steaks!

Integrity: We have the courage to say “Yes” only when we know we should, and to say “No” at all other times. We are truthful and honest with ourselves and others.

Empathy: We vicariously experience and understand the feelings, thoughts and attitudes of our clients and each other. We walk a mile in others shoes every day.

Adaptability / Flexibility: We have the capacity to change. We accept that unexpected disturbances will occur and are ready to adjust ourselves to new situations and conditions. We acknowledge that our ability to adapt to change impacts our effectiveness.

Decision Making: We are effective problem solvers. We understand the importance of deciding and moving forward. We proactively solicit traditional as well as the most up-to-date information, methods, and means to support these decisions. We will not let perfection hinder us from achieving good enough.
