

Practice Lead – Civil/Structural **Dartmouth, Nova Scotia**

Mitchelmore Engineering Limited (Meco) is hiring a professional, experienced **Practice Lead – Civil/Structural Engineering**. The ideal candidate has eight to ten years of engineering experience including people management and leadership capability.

About Meco

Meco is a focused consulting engineering firm providing civil/structural, geotechnical, hydrotechnical and project management services to both public and private sector clients. Meco, founded on Dam Safety Engineering, is currently seeking a **Practice Lead – Civil/Structural Engineering** to join its team in Dartmouth, NS. The Practice Lead is a technically proficient leader, a “doer-seller”, intent on establishing their mark on the profession to a diversity of projects, not just dams. This is a full-time, salaried position which reports directly to the Engineering Manager.

Specific areas of responsibility include:

- ✓ Technical Responsibility for Studies, Design and Code Compliance
- ✓ Coaching & Providing Leadership to Team Members
- ✓ Delivering Innovative and Reliable Outcomes
- ✓ Staff Relations & Supervisory Feedback
- ✓ Project Management
- ✓ Inspections and Field Work
- ✓ Administration, Documentation, and Reporting

The successful candidate will have:

A graduate degree in civil engineering and senior level engineering experience (10 to 15 years relevant experience). You have proven success in engineering consulting and are comfortable with projects in the public and private sectors. You possess excellent communication and interpersonal skills, excellent analytical, logical thinking and problem-solving skills, and are an effective planner. You are comfortable making decisions independently. You understand the importance of effectively negotiating with others while maintaining the relationship.

Why Choose Meco as an Employer?

Large engineering firms strive to make you feel important and valued...At Small Firms you ARE Important and Valued. If you are not satisfied with pro-forma design and believe you have more to offer, consider Meco.

Why Choose to Work at Meco:

- ✓ Technical Freedom to Explore and Develop “Your” Design Ideas
- ✓ Progressive Flexible Work Day policy, you choose the hours that work for you!
- ✓ Small company and a tight-knit group.
- ✓ Exposure to complex projects that challenge you to go to the next level.
- ✓ Competitive salary, comprehensive benefits package, training and development opportunities, and an RRSP matching program.
- ✓ Meco Cares – Two Employer Paid Volunteer Days Per Year

Core Values:

Fidelity: We are loyal. We lead a balanced life, maintaining balance between the needs of the company and our own needs.

Ingenuity: We are inventive, resourceful and clever in the workplace. We understand that ordinary can be made extraordinary with simple acts. We strive to put the sizzle in our steaks!

Integrity: We have the courage to say “Yes” only when we know we should, and to say “No” at all other times. We are truthful and honest with ourselves and others.

Empathy: We vicariously experience and understand the feelings, thoughts and attitudes of our clients and each other. We walk a mile in others shoes every day.

Adaptability / Flexibility: We have the capacity to change. We accept that unexpected disturbances will occur and are ready to adjust ourselves to new situations and conditions. We acknowledge that our ability to adapt to change impacts our effectiveness.

Decision Making: We are effective problem solvers. We understand the importance of deciding and moving forward. We proactively solicit traditional as well as the most up-to-date information, methods, and means to support these decisions. We will not let perfection hinder us from achieving good enough.
